Independent Auditors' Report

Board of Directors of Acer Gadget Inc.,

Opinion

We have audited the accompanying Parent Company Only Balance Sheet of Acer Gadget Inc. as of December 31, 2024 and 2023, and the Parent Company Only Statement of Comprehensive Income, Parent Company Only Statement of Changes in Equity, Parent Company Only Statement of Cash Flows, and the Notes to Parent Company Only Financial Statements, including a summary of significant accounting policies for the years then ended.

In our opinion, based on the audit results of the independent auditors and the audit report of other accountants, the accompanying parent company only financial statements present fairly, in all material respects, the financial position of the Acer Gadget Inc. as of December 31, 2024 and 2023, and its parent company only financial performance and its parent company only cash flows for the years then ended in accordance with the Regulation Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards of the Republic of China. Our responsibilities under those standards are further described in the auditors' responsibilities for the audit of the parent company only financial statements section of our report. We are independent of Acer Gadget Inc. in accordance with the Norm of Professional Ethics for Certified Public Accountants of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the 2024 parent company only financial statements of Acer Gadget Inc.. These matters were addressed in the context of our audit of the parent company only financial statements as a whole and, in forming our opinion thereon, and we do not provide a separate opinion on these matters. We determined that the key audit matters that shall be communicated in the report are as follows:

I. Revenue recognition

For the accounting policies related to income recognition, please refer to Note 4(15) income from customer contracts of the parent company only financial statements; for disclosures of income, please refer to Note 6(17) of the parent company only financial statements.

Description of the key audit matter:

Customers of Acer Gadget Inc. are spread across different regions worldwide, and the sales to customers involve different types of transaction conditions. Sales income is required to be

recognized through the identification of the timing when the control over products is transferred to customers based on individual sales conditions. There are risks that income nearing the balance sheet date may not be accurately recorded in the accurate period. Therefore, income recognition is one of the material matters for evaluation during our audit of the parent company only financial statements of Acer Gadget Inc..

Responding audit procedures:

The principal audit procedures for the key audit matter above include testing the internal control related to the sales and collection cycle and the financial reporting of Acer Gadget Inc., sampling of sales transactions in the period before and after the end of the annual reporting period to understand the transaction conditions between the Company and its customers, and sampling relevant transaction certificates to evaluate whether the timing of income recognition is appropriate.

II. Valuation of inventories

For the accounting policies related to inventory valuation, please refer to Note 4(7) inventory of the parent company only financial statements; for the description of uncertainties of the accounting estimates and assumptions of inventory valuation, please refer to Note 5(1) of the parent company only financial statements; for the provision for inventory valuation loss, please refer to Note 6(4) of the parent company only financial statements.

Description of the key audit matter:

The inventory of Acer Gadget Inc. is measured at cost or net realizable value, whichever is lower. The main sales products of the Company are innovative computer peripherals and smart life products. Its market competition is intense, and products may be obsolesce when not complying with the market demand, resulting in the possible involvement of the management's subjective judgments for the estimate of the net realizable value of inventories and high uncertainties. Therefore, inventory valuation is one of the material matters for evaluation during our audit of the parent company only financial statements.

Responding audit procedures:

The principal audit procedures for the key audit matters above include understanding the inventory obsolescence valuation policy adopted by the management and evaluating its appropriateness, reviewing the inventory aging statement, analyzing the changes in the inventory age in each period, and testing whether the inventory is classified in the appropriate inventory age interval, evaluating whether the inventory valuation has been processed in accordance with the valuation policy of the Acer Gadget Inc..

Responsibilities of the Management and Those Charged with Governance for the Parent Company Only Financial Statements

The responsibility of the management is to prepare the fair parent company only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and to maintain the necessary internal control related to the preparation of the parent company only financial statements to ensure that the parent company only financial statements are free from material misstatement due to fraud or error.

In preparing the parent company only financial statements, the management is responsible for assessing Acer Gadget Inc.'s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate Acer Gadget Inc., or cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the Audit Committee, are responsible for overseeing the financial reporting process of Acer Gadget Inc..

Auditors' Responsibilities for the Audit of the Parent Company Only Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report. Reasonable assurance is a high level of assurance. However, the auditing conducted in accordance with the auditing standards of the Republic of China cannot guarantee that it will be able to detect material misstatements in the parent company only financial statements. Misstatement can arise from fraud or error. If the individual or aggregate amount of the misstatement can reasonably expect to affect the economic decisions made by users of the parent company only financial statements, they are considered material.

We exercise professional skepticism during the audit in accordance with the auditing standards. We also performed the following tasks:

- I. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- II. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control Acer Gadget Inc..
- III. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- IV. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Acer Gadget Inc.'s ability to continue as a going concern. If we conclude that material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause Acer Gadget Inc. to cease to continue as a going concern.
- V. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- VI. Obtain sufficient appropriate audit evidence regarding the financial information of investees accounted for using the equity method to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision, and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings (including any significant deficiencies in internal control that we identify during our audit).

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable (including relevant protection measures).

From matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the 2024 parent company only financial statements of Acer Gadget Inc. and are,

therefore, key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Kao, Ching Wen and Tang, Chia Chien.

KPMG

Taipei, Taiwan (Republic of China) March 11, 2025

Notes to Readers

The accompanying parent-company-only financial statements are intended only to present the parent-company-only financial position, financial performance and cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such parent-company-only financial statements are those generally accepted and applied in the Republic of China.

The independent auditors' report and the accompanying parent-company-only financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors' report and parent-company-only financial statements, the Chinese version shall prevail.

Notes to the Parent Company Only Financial Statements For the years ended December 31, 2024 and 2023 (Unless otherwise specified, all amounts are in NT\$ thousand)

I. Company history:

The establishment registration of Acer Gadget Inc. (the "Company," formerly known as E-TEN Information Systems Co., Ltd.) was approved on March 27, 1986 according to the Company Act. June 1, 2021 is the consolidation base day; the Company absorbed and merged with GadgeTek Inc. (the "GadgeTek"), a subsidiary of Acer, by way of the issuance of new shares. The Company is the surviving company, while GadgeTek is the eliminated company. The registered address is 7F-5, No. 369, Fuxing N. Rd., Songshan Dist., Taipei City. The Company mainly engages in telecom value-added network business, the design, sales, and lease of computer software and hardware application systems, and the sales of innovative computer peripherals and smart life products.

II. Date and procedure for the approval of financial statements

The parent company only financial statements were approved by the Board and released on March 11, 2025.

III. Application of new and amended standards and interpretations

- (I) Effect of the adoption of new or amended IFRSs and IAS as endorsed and published by the Financial Supervisory Commission ("FSC")
 - The following new and amended IFRS Accounting Standards commence to apply to the Company on January 1, 2024 and have no material effects on the parent company only financial statements.
 - Amendment to IAS1 "Classification of Liabilities as Current or Non-current"
 - Amendment to IAS1 "Non-current Liabilities with Contractual Clauses"
 - Amendment to IAS7 and IFRS7 "Supplier Financing Arrangement"
 - Amendment to IFRS16 "Lease Liabilities in A Sale and Leaseback"
- (II) Effects of not adopting IFRS Accounting Standards endorsed by the FSC According to the evaluation, the application of the following IFRS Accounting Standards that becomes effective on January 1, 2025 will not have material effects on the parent company only financial statements.
 - Amendment to IAS21 "Lack of Exchangeability"

(III) New and amended standards and interpretations not yet approved by the FSC Standards and interpretations issued by the IASB but not yet endorsed by the FSC that may be related to the Company are as follows:

	Effective date
	announced by the
Main amendment content	IASB
w standard introduced three types of	January 1, 2027

New or amended standards

IFRS18 "Presentation and Disclosures of Financial Statements" The new standard introduced three types of income and expenses, two sub-totals of income statement, and one single note related to the measurement of the management's performance. Such amendments and the guidance to improve the subdivision of information in financial statements provide a better and more consistent information establishment basis and affect all companies.

- More structured income statement: According to the prevailing standards, companies use different formats to express their operating results; therefore, it is hard for investors to compare the financial performance of different companies. The new standard adopted a more structured income statement, introduced the newly defined subtotal of "operating gains," and stated that all income and expenses shall be classified into three different types based on the main operating activities of companies.
- Management performance measurement (MPM): The new standard introduced the definition of MPM and required companies to explain why each measurement indicator can provide useful information, how to calculate, and how to reconcile the measurement indicators and the amounts recognized according to IFRSs in a single note of financial statements.
- More subdivided information: The new standard includes guidance for companies to improve the information grouping of financial statements. This includes whether the information should be included in the main financial statements or be further subdivided in notes.

The Company is currently evaluating the effects of the above-mentioned standards and interpretations on its financial position and business results. The relevant effects will be disclosed when the evaluation is completed. The Company expects that the following other new and amended standards not yet endorsed by the FSC will not have material effects on the parent company only financial statements.

- Amendment to IFRS10 and IAS28 "Sale or Contribution of Assets between an Investor and its Associate or Joint Venture"
- Amendments to IFRS17 "Insurance Contract" and IFRS17

- IFRS19 "Subsidiaries without Public Accountability: Disclosures"
- Amendments to IFRS9 and IFRS7 "Classification and Measurement of Financial Instruments"
- Annual improvements to IFRS Accounting Standards
- Amendment to IFRS9 and IFRS7 "Contracts that Reference Nature-dependent Electricity"

IV. Summary of significant accounting policies

The significant accounting policies adopted by the parent company only financial statements are summarized as follows. The following accounting policies have been consistently applied to all periods in which the parent company only financial statements are presented.

(I) Statement of compliance

The parent company only financial statements are prepared in accordance with the "Regulations Governing the Preparation of Financial Reports" by Securities Issuers.

(II) Basis of preparation

1. Measurement basis

Except for the following material items in the balance sheet, the parent company only financial statements are prepared on the historical cost basis:

- (1) Financial assets at fair value through other comprehensive income measured at fair value; and
- (2) Net defined benefit assets (liabilities) are recognized at the net amount of the present value of the defined benefit obligations less the fair value of the plan assets.
- 2. Functional currency and presentation currency

The Company has adopted the currency in the main economic environment of its operation as its functional currency. The parent company only financial statements are presented in the Company's functional currency, NTD. Unless otherwise specified, all financial information expressed in NTD is in NT\$ thousand.

(III) Foreign currency

1. Foreign currency transactions

Foreign currency transactions are converted into functional currency in accordance with the exchange rate on the transaction date. At the end of each subsequent reporting period (the "reporting date"), monetary items in foreign currencies are converted into functional currency in accordance with the exchange rate of the day. Non-monetary items in foreign currency measured at fair value are converted into functional currency based on the exchange rate on the day measuring the fair value. Non-monetary items in foreign currency measured at historical cost are converted based on the exchange rate on the transaction day.

The exchange difference arising from the translation is generally recognized in profit or loss, except for the equity instruments measured at fair value through other comprehensive income that are recognized in other comprehensive income.

2. Foreign operations

The assets and liabilities of foreign operations, including the goodwill and fair value adjustments generated upon the acquisition, are converted into the presentation currency of the financial statements at the exchange rate on the reporting date. Except for the highly inflationary economy, income and expenses are converted into the presentation currency of the financial statements at the average exchange rate for the period, and the exchange differences generated thereof are recognized in other comprehensive income.

When disposing of a foreign operation that causes a loss of control, loss of joint control, or significant impacts, the cumulative exchange difference related to the foreign operation is entirely reclassified as profit or loss. When the disposal includes a subsidiary of a foreign operation, the relevant cumulative exchange differences are re-attributed to non-controlling interests proportionally. When partially disposing of investments in affiliates or joint ventures of a foreign operation, the relevant cumulative exchange differences are reclassified as profit or loss proportionally.

For monetary items receivable or payable of a foreign operation, if there is no settlement plan and it is not possible to be settled in the foreseeable future, the currency exchange gain or loss generated thereof is deemed a part of the net investment in the foreign operation and are recognized in other comprehensive income.

(IV) Classification of current and non-current assets and liabilities

Assets of the Company that meet one of the following criteria are classified as current assets, and all other assets that are not current assets are presented as non-current assets:

- 1. Assets that are expected to be realized or intended to be sold or consumed in the normal business cycle;
- 2. Assets held primarily for trading purposes;
- 3. Assets expected to be realized within 12 months after the reporting period; or
- 4. The assets are cash or cash equivalents (as defined in IAS7) unless the assets are restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

Liabilities of the Company that meets one of the following criteria are classified as current liabilities, and all other liabilities that are not current assets are presented as non-current liabilities:

- 1. Liabilities that are expected to be settled within the normal business cycle;
- 2. Liabilities held primarily for trading purposes;
- 3. Liabilities expected to be settled when falling due within 12 months after the reporting period; or
- 4. Liabilities for which the settlement cannot be unconditionally deferred to at least 12 months at the end of the reporting period.

(V) Cash and cash equivalents

Cash includes cash on hand, check deposits, and demand deposits. Cash equivalents refer to investments that are short-term, highly liquid, subject to a low risk of changes in value, and readily convertible to a known amount in cash. Time deposits that meet the above definition and are held for the operational purpose of meeting short-term cash commitments are reported as cash equivalents.

(VI) Financial instruments

Accounts receivable are recognized at the time they are incurred. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the financial instrument contract terms. Financial assets not measured at fair value through profit or loss (except for accounts receivable that constitute a significant financial component) or financial liabilities that are initially measured at fair value plus transaction costs directly attributable to the acquisition or issuance. The accounts receivable that do not include significant financial components are initially measured at the transaction price.

1. Financial assets

Upon the initial recognition, financial assets are classified into: financial assets measured at amortized cost and financial assets at fair value through other comprehensive income. When the Company purchases or sells financial assets in accordance with trading practices, trade date accounting is adopted for treatment. The Company only reclassifies all affected financial assets starting from the following reporting period when changing the business model of financial asset management.

(1) Financial assets measured at amortized cost

Financial assets that comply with the following conditions and are not designated as measured at fair value through profit or loss are measured at amortized cost:

- The financial assets are held under the business model with the purpose of collecting contractual cash flows.
- The contractual terms of the financial assets generate the cash flow on a specific date, which are solely for the payment of the principle and the interests on the outstanding principal.

After the initial recognition, the effective interest rate method is adopted to measure such assets at amortized cost less impairment losses. Interest income, currency exchange gains and losses, and impairment losses are recognized in profit or loss. Upon the derecognition, gains or losses are included in profit or loss.

(2) Financial assets at fair value through other comprehensive income

Investments in debt instruments that comply with the following conditions and are not designated as measured at fair value through profit or loss are measured at fair value through other comprehensive income:

- The financial assets are held under the business model with the purpose of collecting contractual cash flows and sales.
- The contractual terms of the financial assets generate the cash flow on a specific date, which are solely for the payment of the principle and the interests on the outstanding principal.

Upon the initial recognition, the Company may make an irrevocable selection to report the subsequent changes in the fair value of investments in equity instruments not held for transactions in other comprehensive income. The abovementioned selection is made for instruments on a case-by-case basis.

Financial assets at fair value through other comprehensive income are subsequently measured at fair value. Except for currency exchange gain or loss of investments in debt instruments, interest income and impairment loss calculated by using the effective interest method, and dividend income from investments in equity instruments (unless significantly represent the recovery of partial investment costs) that are recognized in profit or loss, the changes in the remaining carrying amounts are recognized in other comprehensive income and accumulated in unrealized gain or loss of financial assets at fair value through other comprehensive income under equity. Upon the derecognition, cumulative gains or losses under equity are reclassified to profit or loss for investments in debt instruments, and cumulative gains or losses under equity are reclassified to retained earnings instead of profit or loss for investments in equity instruments.

Dividend income from equity investment is recognized on the day on which the Company is entitled to receive the dividend (generally the ex-dividend date).

(3) Impairment of financial assets impairment

The Company recognizes the loss allowance expected credit loss (ECL) of financial assets measured at amortized cost (including cash and cash equivalents, accounts receivable (including those from related parties), other receivables (including those from related parties), and refundable deposits).

The loss allowance for accounts receivable is measured at lifetime ECL. For other financial assets, except for the following financial assets with their loss allowance measured at 12-month ECL, the remaining are measured at lifetime ECL.

 The credit risk of other debt securities and bank deposits (i.e., default risks of financial instruments during the expected lifetime) has not increased significantly from the initial recognition.

Lifetime ECL refers to the ECL that may incur due to all possible defaults during the expected lifetime of financial instruments. 12-month ECL refers to ECL that may incur due to possible default within 12 months after the reporting date (or a shorter time if the expected lifetime of the financial instruments is shorter than 12 months).

The longest period for the measurement of ECL is the longest contract period of the Company that is exposed to credit risks.

When determining whether the credit risk has increased significantly from the initial recognition, the Company considers reasonable and supportive information (can be obtained without excessive cost or investment), including qualitative and quantitative information, and analyzes based on the Company's historical experience, credit assessments and forward-looking information.

ECL is the weighted estimate of the probability of lifetime ECL of financial instruments. Credit losses are measured at the present value of all cash shortfalls (i.e., the difference between the collectible cash flow of the Company based on contracts and the cash flow expected to be collected by the Company.) ECL is discounted based on the effective interest rate of financial assets.

The Company assesses whether the financial assets measured at amortized cost have credit impairment on each reporting date. When one or more events that will negatively affect the estimated future cash flow of financial assets occur, the financial assets have credit impairments. The evidence of the credit-impaired financial assets includes the following information:

- Major financial difficulties of borrowers;
- Default, such as postpone or overdue for more than 180 days;
- Concessions that are not initially considered given by the Company to borrowers due to economic or contractual reasons related to the financial difficulties of borrowers; or
- Borrowers are likely to apply for bankruptcy or proceed with other financial restructuring.

The loss allowance for financial assets measured at amortized cost is deducted from the carrying amount of the assets.

When the Company cannot reasonably expect the recovery of financial assets entirely or partially, the total carrying amount of financial assets is directly reduced. The Company analyzes the write-off timing and amount separately based on whether it is reasonably expected to be recoverable. The Company expects that the write-off amount will not have a significant reversal. However, the financial assets that have been written off can still be enforced to comply with the procedure for procedures for recovery of overdue amounts of the Company.

(4) Derecognition of financial assets

The Company derecognizes financial assets only when the contractual rights to the cash flow of the assets are terminated, or the financial assets are transferred, and almost all risks and rewards of the asset ownership are transferred to other enterprises, or almost all risks and rewards of the ownership is not transferred or retained, and the control of the financial assets is not retained.

If the Company retains almost all risks and rewards of the ownership of the transferred assets when it enters into a transaction to transfer financial assets, the consolidated company continues to recognize the assets in the balance sheet.

2. Financial liabilities

(1) Equity transaction

Equity instruments are any contracts that evidence the residual equity of the Company's assets after deducting all its liabilities. The equity instruments issued by the Company are recognized at the amount of the consideration for the acquisition less the direct issuance cost.

(2) Financial liabilities

The financial liabilities of the Company are initially classified as measured at amortized cost and subsequently measured at amortized cost using the effective interest method. Interest expenses and exchange gains or losses are recognized in profit or loss. Any gain or loss at the time of derecognition is recognized in profit or loss.

(3) Derecognition of financial liabilities

The Company derecognizes financial liabilities when contractual obligations are fulfilled, canceled, or expired. When the terms of financial liabilities are modified, and the cash flow has significant differences in liabilities after the modification, the initial financial liabilities are derecognized, and the new financial liabilities are recognized at fair value based on the modified terms. Upon the derecognition of financial liabilities, the differences between their carrying amount and the total consideration paid or to be paid (including any non-cash assets transferred or liabilities assumed) are recognized as profit or loss.

(4) Offset financial assets against financial liabilities

The Company may only offset financial liabilities against financial assets when the consolidated company has the legal right to do so and has the intention to settle at a net basis or realize assets and settle liabilities simultaneously, and such offsets shall be expressed at a net basis in the balance sheet.

(VII) Inventory

Inventory is measured at cost or net realizable value, whichever is lower. Costs include necessary expenses to allow it to reach the location and status available for use and are calculated by adopting the weighted average method. The net realizable value is calculated by subtracting the estimated selling price under normal operation from the estimated cost and selling expenses that are to be invested before completion.

(VIII) Investments in subsidiaries

When preparing the parent company only financial statements, the Company adopts the equity method to for the valuation of investees that it has control. Under the equity method, the allocation of current profit or loss and other comprehensive income in the parent company only financial statements and the current profit or loss and other comprehensive income attributable to owners of the parent company in the financial statements prepared on the consolidation basis are equivalent, and the owners' equity in the parent company only financial statements and equity attributable to owners of the parent company in the financial statements prepared on the consolidation basis are equivalent.

If the change in the Company's ownership equity in a subsidiary does not result in the loss of control, it is treated as an equity transaction with the owner.

(IX) Property, plant and equipment

1. Recognition and measurement

Property, plant and equipment are measured at cost (including capitalized borrowing costs) less cumulative depreciation and any cumulative impairment.

If the useful lives of the major components of property, plant and equipment are different, they are deemed separate items (major components) of property, plant and equipment.

The gain or loss on the disposal of property, plant and equipment is recognized in profit or loss.

2. Subsequent cost

Subsequent expenditures are capitalized only when future economic benefits are likely to flow into the Company.

3. Depreciation

Depreciation is calculated based on the cost of assets less the residual value and is recognized in profit or loss on a straight-line basis throughout the estimated useful life of each component. Leasehold improvements are amortized in accordance with the average method over the lease term or the estimated useful life, whichever is shorter. Except for land, which is not depreciated, the estimated useful lives for the remaining equipment are: 3 years for machinery and mold equipment, 3 years for office equipment, and 3 years for leasehold improvements.

The Company examines the depreciation method, useful life and residual value on each reporting date and makes appropriate adjustments if necessary.

(X) Investment property

An investment property refers to a property held for the purpose of earning rental or asset appreciation, or both, rather than a property held for normal business for sales or administrative purposes. Investment properties are initially measured at cost and subsequently measured at cost less cumulative depreciation and cumulative impairment. The depreciation method, useful life and residual value shall comply with the requirements for property, plant and equipment.

The rental income from investment property is recognized in other income and expenses over the lease period on a straight-line basis. The lease incentives given are recognized as adjustments to the lease income during the lease period.

When the intended use of the investment property is changed, and it is reclassified as property, plant and equipment, the carrying amount at the time of changing the intended use is reclassified.

(XI) Intangible assets

The intangible assets acquired by the Company are measured at cost less cumulative amortization and cumulative impairment. The amortization amount is calculated on a straight-line basis in accordance with the following estimated useful lives: 1 to 3 years for purchased software, 5 years for patent rights, and 10 years for trademark rights.

The Company examines the residual value, depreciation period, and depreciation method on each reporting date and makes appropriate adjustments if necessary.

(XII) Lease

The Company assesses whether the contract is or includes a lease on the date of establishment of the contract. If the contract transfers the control over the use of identified assets for a period of time in exchange for consideration, the contract is or includes a lease.

1. Lessee

The Company recognizes the right-of-use assets and lease liabilities on the commencement date of the lease. The right-of-use assets are initially measured at cost, which includes the initial measurement amount of the lease liabilities, and any lease payments paid on the commencement date of the lease or before shall be adjusted, plus the initial direct costs incurred and the estimated costs to dissemble and remove the underlying assets and recover the location while deducting any lease incentives collected.

The right-of-use assets are depreciated on a straight-line basis from the commencement date of the lease to the expiry of the useful life or the expiry of the lease period of the right-of-use assets, whichever is earlier, subsequently. In addition, the Company regularly assesses whether the right-of-use assets are impaired, treats any impairment losses that have occurred, and adjusts the right-of-use assets accordingly when the remeasurement of lease liabilities occurs.

The initial measurements of lease liabilities are based on the present value of the unpaid lease payments on the commencement day. If the implicit interest rates of leases can be easily confirmed, the discount rate shall be the interest rate. If it cannot be easily confirmed, the incremental borrowing interest rate of the Company shall be adopted. Generally, the Company adopts its incremental borrowing interest rate as the discount rate.

Lease payments included in the measurement of lease liabilities include:

- (1) Fixed payment, including substantive fixed payment;
- (2) For variable lease payments depending on a certain index or rate, the initial measurement adopts the index or rate on the lease commencement date.
- (3) The residual guarantee amount expected to be paid; and
- (4) The exercise price or the penalty to be paid when it is reasonably confirmed that the purchase option or lease termination option will be exercised.

Interests are provided for lease liabilities subsequently by using the effective interest method, and their amounts are measured when the following circumstances occur:

- (1) Changes in the index or rate that is used to determine the lease payment result in changes in the future lease payment;
- (2) Changes in the residual guarantee amount expected to be paid;
- (3) Changes in the assessment of the purchase option of the underlying asset;
- (4) Changes in the evaluation of the lease period due to the changes in the estimate on whether to exercise the extension or termination option;
- (5) Modification of the lease target, scope, or other terms.

When lease liabilities are remeasured due to the changes in the index or rate used to determine the lease payment above, changes in the residual guarantee amount, and changes in the evaluation of the extension or termination option, the carrying amount of right-of-use assets is adjusted accordingly, and the remaining remeasurement amount is recognized in profit or loss when the carrying amount of right-of-use assets is reduced to zero.

For the lease modification that reduces the scope of the lease, the carrying amount of right-of-use assets is reduced to reflect the partial or full termination of the lease, and the differences between the carrying amount and the remeasurement of lease liabilities are recognized in profit or loss. The Company presents right-of-use assets and lease liabilities that do not comply with the definition of investment property in the balance sheet as single line items.

For short-term leases and low-value underlying asset leases, the Company opted not to recognize right-of-use assets and lease liabilities but to recognize related lease payments as expenses on a straight-line basis over the lease period.

2. Lessor

Regarding a transaction in which the Company is the lessor, the lease contract is classified as a finance lease or operating lease based on whether almost all risks and rewards of the ownership of the underlying asset are transferred on the date of lease establishment. During the assessment, the Company considers relevant specific indexes, such as whether the lease period covers the main part of the economic life of the underlying assets.

For operating leases, the Company recognizes the lease payments received on a straight-line basis throughout the lease period.

(XIII) Impairment of non-financial assets

The Company assesses whether the carrying amount of non-financial assets (excluding inventories and deferred income tax assets) has any indication of impairment on each reporting date. If there is any indication of impairment, the recoverable amount of the asset is estimated. Goodwill is tested for impairment annually or whenever there is an indication of impairment.

For the purpose of impairment testing, a group of assets with cash inflows majorly independent of the cash inflow of other individual assets or asset groups is used as the minimum identifiable asset group. Goodwill from the business combination is allocated to cash-generating units or cash-generating unit groups that are expected to benefit from the synergy of the business combination. The recoverable amount is the fair value of the individual asset or cash-generating unit less the disposal cost and the value-in-use, whichever is higher. When assessing the value-in-use, the estimated future cash flows are converted to the present value at the discount rate. The discount rate should reflect the current market's assessment of the time value of money and the specific risks of the asset or cash-generating unit.

If the recoverable amount of an individual asset or cash-generating unit is lower than the carrying amount, an impairment loss is recognized. The impairment loss is recognized immediately in profit or loss, and the carrying amount of the goodwill allocated to the cash-generating unit shall be reduced first, and then the carrying amount of the respective assets shall be reduced based on the proportion of the carrying amount of other assets in the unit.

The impairment loss on goodwill is not reversible. Non-financial assets other than goodwill are reversed only to the extent that the carrying amount (less depreciation or amortization) of the assets has not been recognized as impairment loss in prior years.

(XIV) Provisions for liabilities

The recognition of provisions for liabilities are current obligations due to past events that make the Company likely to be required to settle such obligations through the outflow of resources with economic benefits in the future, and the amount of such obligations can be reliably estimated. Provisions for warranty liabilities are recognized upon the sales of products or services, and the provisions for liabilities are measured based on the historical warranty data and all possible results and weighted based on the possibility.

(XV) Income from customer contracts

Income is measured at the consideration that is expected to be entitled to obtain for the transfer of products or services. The Company recognizes income when the control over the product or service is transferred to the customer to fulfill the performance obligation. The Company's income items are described as follows:

1. Sales of products

The Company recognizes income when the control of the product is transferred. The transfer of control over the product means that the product has been delivered to the customer, the customer can fully determine the sales channel and price of the product, and there is no unperformed obligation that may affect the customer in accepting the product. The delivery occurs when the product is shipped to a specific location, the risk of obsolescence and loss has been transferred to the customer, and the customer has accepted the product according to the sales contract, the acceptance terms have expired, or the Company has objective evidence to consider that all acceptance conditions have been satisfied.

The Company recognizes income based on the contract price less the net amount of the estimated quantity discount and allowance. The amount of the discount or allowance is estimated based on the expected value based on past experience and is recognized only to the extent that it is highly probable that a significant reversal will not occur. As of the reporting date, the amount of relevant sales discounts or allowances that are expected to be paid to the customer is recognized as refund liabilities.

The Company has the obligation to provide a standard warranty and thus has the obligation to refund the defective goods. The consolidated company has also recognized the provision for warranty liabilities.

The Company recognizes the accounts receivable when the products are delivered, as the consolidated company has the right to unconditionally receive the consideration at that point in time

2. Financial component

The Company expects that the interval between the time when all customer contracts transfer the products or services to the customer and the time when the products or services are paid by the customer shall not exceed one year. Therefore, the consolidated company does not adjust the time value of money of the transaction price.

(XVI) Employee benefits

1. defined contribution plan

The contribution obligations under the defined contribution plan are recognized as employee benefit expenses under the profit or loss account during the service period of employees.

2. Defined benefit plan

The net obligations under the defined benefit pension plan are the discounted value of the future benefit earned from the services provided by the employees in the current or past period under various benefit plans less the fair value of any plan assets. The discount rate is mainly the market yield rate of government bonds with the equivalent denomination currency, and the expected benefit payment with the maturity day close to the net obligation deadline of the Company on the reporting date. The net obligation of the defined benefit plan is calculated by qualified actuaries using the projected unit credit method every year.

For the benefit improvement in the plan, regarding the part that the benefit increases due to employees' past services, relevant expenses are immediately recognized as profit or loss.

The remeasurement of net defined benefit liabilities (assets) includes (1) actuarial gains and losses; (2) return on plan assets, but exclude the amount of net interest included in the net defined benefit liabilities (assets); and (3) any changes in the asset cap effect, but exclude the amount of net interest included in the net defined benefit liabilities (assets). The remeasurement of net defined benefit liabilities (assets) is recognized in other comprehensive income and transferred to other equity during the period.

When the Company experiences curtailment or settlement, the curtailment or settlement gain or loss of the defined benefit plan is recognized. Curtailment or settlement gain or loss includes any changes in the fair value of plan assets and changes in the present value of defined benefit obligations.

3. Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and recognized as expenses when the related services are provided. If the Company has a present legal or constructive obligation to pay for the services rendered by employees in the past and the obligation can be estimated reliably, the short-term cash bonus or the amount expected to be paid under the bonus plan is recognized as liabilities.

(XVII) Income tax

Income tax includes current and deferred income tax. Except for those related to business combinations and items recognized directly in equity or other comprehensive income, current income tax and deferred income tax shall be recognized in profit or loss.

The Company determines that the interest or penalty related to the income tax (including uncertain tax treatment) does not comply with the definition of the income tax; therefore, the accounting treatment of IAS37 is applicable.

The Company determines that the supplementary tax that it paid under the Global Anti-Base Erosion - Pillar 2 falls within the scope of IFRS12 "Income Tax," and the tentative enforced exemption of income tax accounting treatment related to the supplementary tax is applicable; supplementary tax is recognized as current income tax when incurred.

The current income tax includes the estimated income tax payable or tax refund receivable calculated based on the taxable income (loss) of the current year, and any adjustments to the income tax payable or tax refund receivable of prior years. The amount reflects the best estimate of the expected payment or collection under the statutory tax rate or tax rate substantially enacted on the reporting date after the uncertainty related to the income tax (if any) is reflected.

Deferred income tax is measured and recognized in accordance with the temporary differences between the carrying amount of assets and liabilities and their tax basis on the reporting date. The temporary difference arising from the following circumstances is not recognized as deferred income tax:

- 1. Assets or liabilities initially recognized in a transaction that is not a business merger, and the transaction (1) does not affect accounting profits and taxable income (loss) at the time, and (2) does not result in equivalent taxable and deductible temporary differences
- 2. The temporary difference generated from the investment in subsidiaries, affiliates and joint ventures, of which the time of temporary difference is controllable by the Company and which is not likely to be reversed in the foreseeable future; and
- 3. Taxable temporary differences generated from the initial recognition of goodwill.

 Deferred income tax assets are recognized for unused tax losses and unused income tax credits carried forward and deductible temporary differences to the extent that it is probable that future taxable income will be available for use. The amount is re-evaluated on each reporting date and is reduced to

the extent that it is not probable that the relevant income tax benefit can be realized, or the amount decreased is reversed to the extent that it is probable that there will be sufficient taxable income.

Deferred income tax is measured at the tax rate when the temporary difference is reversed based on the statutory tax rate or tax rate substantially enacted on the reporting date, with the uncertainty of income tax (if any) reflected.

The Company offsets deferred income tax assets and deferred income tax liabilities only when the following conditions are fulfilled:

- 1. The Company has the legal enforcement right to offset the current income tax assets and current income tax liabilities; and
- 2. Deferred income tax assets and deferred income tax liabilities are related to one of the following taxable entities levied by the same tax authorities;
 - (1) Same taxpayer; or
 - (2) Different taxable entities, but each entity intends to settle the current income tax liabilities and assets on a net basis or realize the assets and settle the liabilities at the same time in each future period in which the deferred income tax assets are expected to be recovered and deferred income tax liabilities are expected to be settled.

(XVIII) Earnings per share

The Company has the basic and diluted earnings per share attributable to the ordinary equity holders of the Company. The basic earnings per share of the Company are calculated based on the profit and loss of the ordinary equity holders of the Company divided by the weighted average number of outstanding ordinary shares of the current period. The diluted earnings per share is calculated by having the profit and loss of the ordinary equity holders of the Company and the number of weighted average outstanding adjusted for the effect of all potentially diluted ordinary shares. The potential diluted ordinary shares of the Company include the employee remuneration that may be paid in the form of stock.

(XIX) Segment information

The Company has disclosed its segment information in the consolidated financial statements; therefore, segment information will not be disclosed in the parent company only financial statements

V. Major sources of uncertainty of significant accounting judgments, assumptions, and estimates

When preparing the financial statements, the management is required to make judgments and estimates for the future (including climate-related risks and opportunities), which will have effects on the adoption of accounting policies and the reported amount of assets, liabilities, income, and expenses. The results may be different from the estimates.

The management continues to examine the estimates and basic assumptions, which are consistent with the risk management and climate-related commitments of the Company. Changes in the estimates are recognized in the period of change and the future periods that are affected.

The uncertainty of the following assumptions and estimates may lead to a significant risk of material adjustment in the carrying amount of assets and liabilities in the following fiscal year. The relevant information is as follows:

(I) Inventory valuation:

As inventory is denominated at cost or net realizable value, whichever is lower, the Company assesses the amount of inventory on the reporting date due to obsolete or no market sales value and writes down the inventory cost to the net realizable value. The inventory valuation is mainly based on the product demand in a specific period in the future; therefore, significant changes may occur. For details, please refer to Note 6(4) for the recognition of inventory valuation losses.

VI. Description of material accounting items

(I) Cash and cash equivalents

	20	24.12.31	2023.12.31
Demand deposits and check deposits	\$	177,291	87,733
Time deposits with an initial maturity day of less than		808,485	761,470
three months			
	\$	985,776	849,203

(II) Financial

ncial assets at fair value through other comprehensive	incom	e - Non-curre	ent
	20	24.12.31	2023.12.31
Equity instruments measured at fair value through other comprehensive income			
Domestic TWSE/TPEx-listed stocks	<u>\$</u>	233,501	281,591

The investments in equity instrument investment held by the Company are long-term strategic investments and are not held for trading purposes; therefore, they are designated as measured at fair value through other comprehensive income. The Company did not dispose of strategic investments in 2024 and 2023.

(III) Net accounts receivable (measured at amortized cost)

	20	24.12.31	2023.12.31
Accounts receivable	\$	103,586	81,799
Accounts receivable - Related parties		220,954	249,876
		324,540	331,675
Less: Loss allowance		-	(1,206)
	<u>\$</u>	324,540	330,469

The Company adopts a simplified approach to estimate the ECL of accounts receivable (i.e., using lifetime ECL to measure) and has included it in the forward-looking information. Analysis of ECL of accounts receivable is as follows:

			2024.12.31	
		Carrying amount of accounts receivable	Weighted average ECL rate	Allowance for lifetime ECL
Not past due	\$	102,190	0.00%	-
Overdue for 1 to 30 days		852	0.00%	-
Overdue for 31 to 60 days		106	0.00%	-
Overdue for 61 to 90 days		6	0.00%	-
Overdue for 91 to 120 days		216	0.00%	-
Overdue for 121 to 150 days		216	0.00%	
	<u>\$</u>	103,586		

			2023.12.31		
		Carrying amount of accounts receivable	Weighted average ECL rate	Allowance for lifetime ECL	
Not past due	\$	78,196	0.00%	-	
Overdue for 1 to 30 days		349	0.00%	-	
Overdue for 31 to 60 days		1,787	0.00%	-	
Overdue for over 151 days		284	8.10%	(23)	
Overdue for over 181 days		1,183	100.00%	(1,183)	
	<u>\$</u>	81,799		(1,206)	

The Company's accounts receivable - related parties as of December 31, 2024 and 2023 were assessed to have no ECL, and the analysis is as follows:

	20	24.12.31	2023.12.31
Not past due	\$	217,906	203,564
Overdue for 1 to 30 days		2,872	45,102
Overdue for 31 to 60 days		4	-
Overdue for 61 to 90 days		172	1,210
Overdue for over 181 days			
	<u>\$</u>	220,954	249,876

The table of changes in loss allowance of accounts receivable of the Company is as follows:

	2024	2023
Opening balance	\$ 1,206	1,183
Recognition of impairment losses	-	23
Amount written off during the year due to failure to recover	 (1,206)	-
Closing balance	\$ -	1,206

(IV) Inventory

	20	24.12.31	2023.12.31
Raw materials	\$	1,600	2,399
Products and finished goods		130,000	100,565
	<u>\$</u>	131,600	102,964

The breakdown of the inventory-related expenses recognized in the cost of sales during the period is as follows:

	2024	2023
Cost of inventory sold	\$ 1,935,147	1,345,123
Inventory valuation losses (price recovery gains)	(7,537)	5,072
	\$ 1,927,610	1,350,195

The inventory valuation loss is recognized as the inventory valuation loss due to the write-down of the inventories to the net realizable value at the end of the period. The inventory price recovery gain was due to a decrease in the amount of allowance for inventory valuation loss as assessed resulting from the sale or use of inventory with allowance for valuation loss provided.

(V) Investments under the equity method

The Company's investments under the equity method on the reporting date is as follows:

		2024.12.3	1	2023.12.31
Subsidiary	<u>\$</u>	98,	559	64,766

Please refer to the 2024 consolidated financial statements.

In 2024, the Company performed a capital contribution in cash in the amount of NT\$15,786 thousand to subsidiary Acer Gadget America Inc. and obtained 100% equity.

(VI) Property, plant and equipment

The breakdown of changes in the cost and cumulative depreciation of the Company's property, plant and equipment is as follows:

Cost: Balance on January 1, 2024 \$ 198 938 279 1,415 Addition 20,825 - - 20,825 Disposal - (10) - (10) Balance on December 31, 2024 \$ 21,023 928 279 22,230 Balance on January 1, 2023 \$ 198 21,164 337 21,699 Addition - 186 - 186 Disposal - (20,412) (58) (20,470) Balance on December 31, 2023 \$ 198 938 279 1,415 Cumulative depreciation: Balance on January 1, 2024 \$ 198 580 132 910 Depreciation 2,948 216 92 3,256 Disposal - (2) - (2) Balance on December 31, 2024 \$ 3,146 794 224 4,164 Balance on January 1, 2023 \$ 161 20,731 98 20,990 Depreciation 37 261 92 390 Disposal - (20,412) (58)		aı	achinery nd mold uipment	Office equipment	Lease improveme nt	Total

December 31, 2023	\$	3,854	2,461	-	6,315
January 1, 2023	\$	3,854	2,592	-	6,446
Fair value:					
December 31, 2024				<u>\$</u>	19,488
December 31, 2023				<u>\$</u>	17,864

The fair value of investment properties is determined by the management of the Company with reference to the market evidence of the transaction price of similar properties in the same area or based on the appraisal of an independent appraiser. The input value used in the fair value valuation technique is classified as Level 3.

(IX) Lease liabilities

1. The carrying amount of the Company's lease liabilities is as follows:

	2024.12.31	2023.12.31	
Current	\$ 1,070	3,165	
Non-current	\$ -	427	

Please refer to Note 6(21) for maturity analysis.

2. The amounts recognized in profit or loss are as follows:

	2	024	2023
Interest expenses of lease liabilities	<u>\$</u>	51	80
Expenses of short-term leases	<u>\$</u>	130	57
Expenses of low-value lease assets	<u>\$</u>	-	99

3. The amounts recognized in the statement of cash flows are as follows:

	2024	2023
Total cash outflow from leases	\$ 5,263	5,366

4. Important lease terms

The lease period of houses and buildings, offices, and miscellaneous equipment leased by the Company is generally one to two years. In addition, the company leases certain houses and buildings, offices, and miscellaneous equipment as they are short-term or low-value leases. Therefore, the Company has elected to apply the recognition exemption and not recognize the relevant right-of-use assets and lease liabilities.

(X) Provisions for liabilities - current

	Wa	arranty
Balance on January 1, 2024	\$	6,404
Addition		4,180
Use		(2,151)
Effects of exchange rate		(540)
Balance on December 31, 2024	<u>\$</u>	7,893
Balance on January 1, 2023	\$	8,197
Addition		30
Use		(1,866)
Effects of exchange rate		43
Balance on December 31, 2023	<u>\$</u>	6,404

1. Provisions for warranty

Provisions for warranty liabilities are estimated based on the quantity within the repair warranty period, the historical repair rate of such products, and the unit repair costs. The Company continues to examine the estimation basis and make amendments in due course.

(XI) Operating lease - Lessor

The Company leases its investment properties. As it does not transfer almost all the risks and rewards attached to the ownership of the underlying assets, these lease contracts are classified as operating leases. For details, please refer to Note 6(8) investment property.

The rental income arising from the investment property leased in 2024 and 2023 was NT\$369 thousand and NT\$323 thousand, respectively.

(XII) Employee benefits

1. Defined benefit plan

The reconciliation between the present value of the defined benefit obligations and net defined benefit assets (liabilities) of the Company is as follows:

	20	24.12.31	2023.12.31
Present value of defined benefit obligations	\$	-	-
Fair value of plan assets		_	46,887
Net defined benefit assets	<u>\$</u>	-	46,887

The Company's defined benefit plan makes appropriation to the labor pension fund account with the Bank of Taiwan. The pension payment for each employee under the Labor Standards Act is calculated based on the base points obtained from the service seniority and the average salary of the six months prior to retirement.

(1) Composition of plan assets

The pension fund appropriated by the Company in accordance with the Labor Standards Act is managed by the Bureau of Labor Funds of the Ministry of Labor (the "Bureau of Labor Funds"). According to the "Regulations for the Management of Collection and Operation of Labor Pension Preparation Fund," the minimum income of the fund shall not be less than the income calculated based on the local bank's two-year fixed deposit interest rate in terms of the utilization of the fund.

As of December 31, 2023, the balance of the labor pension fund account with the Bank of Taiwan of the Company was NT\$46,887 thousand. For information on the use of pension fund assets, including fund earning yields and fund asset allocation, please refer to the information announced on the website of the Bureau of Labor Funds.

(2) Changes in the fair value of plan assets

		2024	2023
Fair value of the plan assets at the beginning of the period	\$	46,887	45,913
Interest income		4,275	974
Settlement of plan benefits		(51,162)	
Fair value of the plan assets at the end of the period	<u>\$</u>	-	46,887

The Company settled the balance appropriated to the labor pension fund account with the Bank of Taiwan in 2024 and recognized relevant gains as a reduction item to operating expenses in the amount of NT\$4,275 thousand.

(3) Changes in the effects of the asset cap

The Company had no effect of the cap of the defined benefit plan in 2024 and 2023.

(4) Expenses recognized as profit or loss

	2024	2023
Net interest income from net defined benefit	\$ (4,275)	(974)
assets		
Operating expenses	\$ (4,275)	(974)

2024

2022

2. defined contribution plan

The Company's defined contribution plan complies with the Labor Pension Act. An amount equivalent to 6% of the laborers' monthly wage is deposited into the laborers' individual pension account at the Bureau of Labor Insurance. Under the plan, the Company has no legal or constructive obligation to pay an additional amount after appropriating the fixed amount. The Company's pension expenses under the defined contribution plan amounted to NT\$3,513 thousand and NT\$3,022 thousand in 2024 and 2023, respectively, which had been appropriated to the Bureau of Labor Insurance.

(XIII) Income tax

1. The breakdown of the Company's income tax expenses is as follows:

	2024	2023
Current Income tax expenses (gains)	 	_
Generated during the period	\$ 26,848	-
Adjustments to the current income tax for the prior period	(177)	(1,814)
Additional tax levied on the undistributed earnings	 1,275	
	 27,946	(1,814)
Deferred income tax expenses		
Occurrence and reversal of temporary differences	 2,391	5,790
	\$ 30,337	3,976

The Company did not have income tax directly recognized in equity or other comprehensive income in 2024 and 2023.

The reconciliation of the relationship between income tax expenses and net profit before tax is as follows:

	 2024	2023
Profit before tax	\$ 146,366	125,239
Income tax calculated based on the domestic tax	\$ 29,273	25,048
rate where the Company is located		
Tax-exempted income	(1,642)	(1,393)
Adjustments to income tax in the prior period	(177)	(1,814)
Recognition of unrecognized taxable losses in the	-	(3,078)
prior period		
Changes in unrecognized temporary differences	-	(14,787)
Additional tax levied on the undistributed earnings	1,275	-
Others	 1,608	
Income tax expenses	\$ 30,337	3,976

2. Deferred income tax assets and liabilities

The changes in the Company's deferred income tax assets and liabilities in 2024 and 2023 are as follows:

Deferred income tax assets:

	1	llowance for sales liscounts	Allowance for inventory valuation losses	Taxable losses	Expenses payable and others	Total
January 1, 2024	\$	2,310	6,319	6,387	4,601	19,617

3. Approval of income tax

The Company's profit-seeking enterprise income tax returns have been approved by the tax authorities up to 2022.

(XIV) Capital and other equity

1. Share capital

As of December 31, 2024 and 2023, the Company's total authorized capital was NT\$1,200,000 thousand, divided into 120,000 thousand shares with a par value of NT\$10 per share. The number of issued shares was 61,860 thousand.

The table of reconciliation of outstanding ordinary shares of the Company in 2024 and 2023 is as follows (presented in thousand shares):

	2024	2023
Opening balance	61,860	60,000
Capital increase in cash		1,860
Closing balance	61,860	61,860

On April 25, 2023, the Board resolved to perform a capital increase in cash in the amount of 1,860 thousand shares, with an issuance price of NT\$26 per share, and 15% (279 thousand shares) of the number of shares to be issued for the capital increase is retained according to the Articles of Incorporation. For part employees waived or undersubscribed, the Board is authorized to contact specific persons for subscription. May 29, 2023 is the base day for the capital increase. Total share payments of NT\$45,360 thousand (with the direct issuance cost of NT\$3,000 thousand deducted) were collected, and relevant registration procedures were completed.

2. Capital reserve

The balance of the Company's capital reserve is as follows:

	20	24.12.31	2023.12.31
Premium from issuance of share capital	\$	327,749	327,749
Trading of treasury shares		46,802	46,802
Consolidation premium		47,682	47,682
Employee stock options		140	140
	\$	422,373	422,373

According to the Company Act, the capital reserve shall be first used to offset losses, and then new shares or cash may be allocated based on realized capital reserve according to the initial shareholding ratio of shareholders. The realized capital reserve, as referred to in the preceding paragraph, includes the premium from the issuance of shares at a price higher than par value and the income from the receipt and gifts.

3. Retained earnings and dividend policy

(1) Legal reserve

According to the Company Act, the Company may distribute new shares or cash from the legal reserve upon the resolution of the shareholders' meeting when the Company has no deficit, provided that the legal reserve exceeds 25% of the paid-in capital.

(2) Special reserve

According to the regulations of FSC, when the Company distributes the distributable earnings, regarding the net amount of reduction items accounted for in other shareholders' equity during the year, appropriate the special reserve from net profit after tax of the period and items other than net profit after tax of the period included in the undistributed earnings of the period and the undistributed earnings from the prior period. For the cumulative amount of reduction items to other shareholders' equity, appropriate the special reserve with an equivalent amount from undistributed earnings of the prior period, which is not distributable. Subsequently, if there is a reversal of the amount of reduction items to other shareholder's equity, the earnings reversed may be distributed.

(3) Earnings distribution

According to the Articles of Incorporation of the Company, if the Company has earnings after year-end closing, the earnings shall be used to pay taxes and make up past losses first, and then 10% thereof shall be set aside as legal reserve unless the accumulated legal reserve has equaled or exceeded the Company's paid-in capital. A certain portion of the earnings shall be set aside or reversed as special reserve as required by law or the competent authority. Any surplus together with any accumulated undistributed earnings may be used to distribute a shareholder dividend.

The Board of Directors shall make a proposal on earnings distribution and submit it to the shareholders' meeting for resolution of distribution of the shareholder dividend." According to the Articles amended on May 29, 2024, the distribution of the Company's dividends, bonuses, capital reserve, or legal reserve shall be entirely or partially made in cash, and the Board is authorized to do so through the resolution approved by over half of the attending Directors at a Board meeting attended by over two-thirds of the Directors, which shall be reported to the shareholders' meeting. The Company's dividend policy is to appropriate no less than 10% of distributable earnings to distribute a shareholder dividend according to current and future development plans, taking into account the investment environment, fund requirements, domestic and international competition, and the interests of shareholders. The dividend may be paid in cash or shares. However, the dividend may not be distributed if the Board of Directors resolves not to do so and the resolution is passed by the shareholders' meeting. Unless the Board of Directors resolves not to distribute a dividend in cash and the resolution is passed by the shareholders' meeting, the percentage of cash dividends shall not be less than 10% of the total dividends in dividend distribution in order to ensure a balanced and stable dividend policy. On May 18, 2023, the shareholders' meeting resolved to distribute a cash dividend of NT\$1.3458687 per share, totaling NT\$80,752 thousand, and to distribute cash of NTD\$0.3041313 per share, totaling NT\$18,248 thousand, from the capital reserve. On May 29, 2024, the shareholders' meeting resolved to distribute a cash dividend of NT\$1.65 per share, totaling NT\$102,069 thousand.

On March 11, 2025, the Board resolved to distribute a cash dividend of NT\$1.7 per share, totaling NT\$105,162 thousand.

For relevant information, please visit the MOPS and other channels.

- 4. Other equity (net amount after tax)
 - (1) Exchange differences arising from the translation of the financial statements of foreign operations

	 2024	2023
Opening balance	\$ (899)	629
Exchange difference arising from the translation	 3,088	(1,528)
of the net assets of foreign operations		
Closing balance	\$ 2,189	(899)

(2) Realized gain or loss of financial assets at fair value through other comprehensive income

		2024	2023
Opening balance	\$	6,983	(150,368)
Changes in fair value of financial assets at fair value

Closing balance	<u>\$</u>	(41,107)	6,983
(3) Remeasurement of the defined benefit plan		2024	2023

(1.301)

(1.301)

Opening balance (i.e., closing balance)

(XV) Share-based payment

The Company's share-based payment arrangement in 2023 is as follows:

	Capital increase in cash retained for employees' subscriptions in 2023
Grant date	April 25, 2023
Number of quantity granted (thousand shares)	279
Contract period	April 25, 2023 to May 24, 2023
Recipient	Employees of the Company
Vesting condition	Vested immediately

The Company adopts the Black-Scholes Model to estimate the fair value of the share-based payment on the grant date. The inputs of the model are as follows:

Capital increase in

	cash retained for employees' subscriptions in 2023	
Fair value of stock options on the grant date (per share: NT\$)	0.444284	
Fair value of stocks on the grant date (per share: NT\$)	24.82	
Execution price (per share: NT\$)	26.00	
Duration of stock options (year)	0.082	
Expected volatility (%)	31.31%	
Risk-free interest rate (%)	0.933%	

The expected volatility is calculated based on the historical average stock price volatility of the comparable companies in the same industry during the vested period; the risk-free interest rate is based on government bonds.

The remuneration cost of share-based payments in 2023 was NT\$124 thousand.

(XVI) Earnings per share

1. Basic earnings per share

		2024	2023
Net profit attributable to ordinary equity holders of the Company	<u>\$</u>	116,029	121,263
Weighted average number of ordinary shares (thousand shares)		61,860	61,106
Basic earnings per share (NT\$)	\$	1.88	1.98

2. Diluted earnings per share

	2024	2023
Net profit attributable to ordinary equity holders of $\underline{\underline{\$}}$ the Company	116,029	121,263
Weighted average number of ordinary shares (thousand shares)	61,860	61,106
Effects of remuneration of employees (G)	468	378
Weighted average number of ordinary shares (thousand shares)	62,328	61,484
Diluted earnings per share (NT\$)	1.86	1.97

(XVII) Income from customer contracts

1. Subdivision of income

<u> </u>		2024	2023
Major regional markets:			
Taiwan	\$	1,190,101	1,165,307
China		436,687	1,686
United Arab Emirates		161,613	-
America		139,514	112,083
Philippines		92,724	57,398
British Virgin Islands		83,685	27,400
Russia		32,461	163,717
Switzerland		28,891	41,842
Malaysia		23,243	20,132
Thailand		13,386	10,518
Others		62,014	52,701
	<u>\$</u>	2,264,319	1,652,784
Main product/service lines:			
Computer peripherals	\$	1,457,128	936,019
Apparel and wearables		507,076	342,346

Others		60,901	74,447
	<u>\$</u>	2,264,319	1,652,784

2. Contract balance

	20	24.12.31	2023.12.31	2023.1.1	
Accounts receivable (including those from related parties)	\$	324,540	331,675	274,516	
Less: Loss allowance		-	(1,206)	(1,183)	
Total	\$	324,540	330,469	273,333	
Contract liabilities - Current	\$	66,050	36,711	26,003	
Contract liabilities - Non-current	\$	754	730	998	

For the details of the disclosures of accounts receivable and their impairments, please refer to Note 6(3).

The change in contract liabilities is mainly due to the difference between the time when the Company transfers the products or services to customers to fulfill the performance obligation and the time when customers pay.

The balance of contract liabilities at the beginning of the period on January 1, 2024 and 2023 that were recognized as income for 2024 and 2023 amounted to NT\$36,673 thousand and NT\$25,978 thousand, respectively.

(XVIII) Remuneration of employees and Directors

According to the Articles of Incorporation, if the Company records a profit in a fiscal year, the Company shall reserve a certain amount in advance to offset accumulated losses, and then appropriate no less than 2% as the remuneration of employees and no more than 8% as the remuneration of Directors. The recipients of the remuneration of employees, which may be distributed in shares or cash, may include the employees of any controlled company or subsidiary who have met certain requirements set by the Board. The remuneration of Directors is distributed in cash. In 2024 and 2023, the estimated remuneration of employees was NT\$11,949 thousand and NT\$11,380 thousand, respectively, and the estimated remuneration of Directors was NT\$970 thousand and NT\$ 920 thousand, respectively. The estimation basis is the amount of net profit before tax before the deduction of remuneration of employees and Directors during the respective period multiplied by the distribution ratio of remuneration of employees and Directors in the Articles of Incorporation, and the amounts are reported as the operating expenses in 2024 and 2023. If the distribution amount differs from the estimated amount in the following year, it will be treated as a change in accounting estimates, and the differences will be recognized as profit or loss for the following year. The remuneration of employees and Directors was resolved by the Board, and the estimated amount in the parent company only financial statements in 2024 and 2023 had no difference, and the remuneration was fully distributed in cash. For relevant information, please visit the MOPS for inquiries.

(XIX) Non-operating income and expenses

1. Interest income

	2024	2023
Interest income of bank deposit	<u>\$ 14,687</u>	9,336
2. Other income		
	2024	2023

Accounts payable (including those to related parties)	\$	359,472	337,424
Other payables (including those to related parties)		93,501	87,409
Lease liabilities		1,070	3,592
Guarantee deposits received	_	1,500	1,500
- -	\$	455,543	429,925

- 2. Information on fair value
 - (1) Financial instruments not measured at fair value

 The management of the Company believes that the carrying amount of the financial assets and
 financial liabilities measured at amortized cost in the financial statements approximate their
 fair values.
 - (2) Financial instruments measured at fair value

The following assets are measured at fair value on a repetitive basis. The following table analyzes the financial instruments measured at fair value after the initial recognition and classifies them into Level 1 to Level 3 based on the observability of fair value. The definition of each level of fair value is as follows:

- A. Level 1: Open quotation of equivalent assets or liabilities in the active market (unadjusted).
- B. Level 2: Except for the open quotation included in Level 1, the input parameters of assets or liabilities are directly (i.e., price) or indirectly (i.e., derived from price) observable.
- C. Level 3: The input parameters of assets or liabilities are not based on the market data (non-observable parameters).

2024 12 21

			2024.	12.31	
			Fair	value	
	_	Level 1	Level 2	Level 3	Total
Financial assets at fair value through other comprehensive income:					
Domestic TWSE/TPEx-listed stocks	\$	233,501	-	-	233,501
Unlisted stocks		-	-	-	-
	\$	233,501	-	-	233,501
	_			12.31 value	
	_	Level 1	Level 2	Level 3	Total
Financial assets at fair value through other comprehensive income:	_				
Domestic TWSE/TPEx-listed stocks	\$	281,591	-	-	281,591
Unlisted stocks					
	\$	281,591	-	-	281,591

There was no transfer of financial assets and liabilities between the levels of fair value in 2024 and 2023.

- (3) Valuation techniques and inputs adopted for financial instruments measured at fair value
 - A. For financial assets with standard terms and conditions and traded in an active market, the fair value is determined by the market quotation (i.e., stocks of TWSE/TPEx-listed companies).
 - B. For the stocks of unlisted companies in Level 3 of fair value, the fair value is estimated by using the market approach, and the judgment is based on the recent fundraising activities, the valuation of similar companies, market conditions and other economic indicators. In addition, the significant unobservable inputs are mainly liquidity discounts; however, the possible changes in liquidity discounts will not lead to significant potential financial impacts; therefore, the quantitative information is not intended to be disclosed.

(XXI) Financial risk management

The Company is exposed to credit risks, liquidity risks and market risks due to its business activities. The note expresses the information on the exposure of the Company to the abovementioned risks, the policies and procedures of the Company to measure and manage such risks, and quantitative disclosures.

1. Credit risks

(1) The amount of maximum credit risk exposure

Credit risks are the risks of financial loss incurred by the Company when the counterparty of financial assets transactions fails to perform its contractual obligations, which mainly come from cash and cash equivalents, accounts receivable from customers and other receivables. The carrying amount of the Company's financial assets represents the maximum credit exposure amount.

(2) Concentration of credit risks

The Company has established a credit policy that analyzes each customer's financial position separately to determine its credit limit. As of December 31, 2024 and 2023, 79% and 77% of the balance of accounts receivable (including those from related parties) comprises three customers. The Company has regularly evaluated the financial position of customers to minimize credit risks.

(3) Credit risks of amounts receivables

For information on credit risk exposure of accounts receivable, please refer to Note 6(3). Other financial assets measured at amortized cost include other receivables and refundable deposits. The abovementioned are all financial assets with low credit risks. Therefore, the loss allowance for the period is measured based on the 12-month ECL (for details of how the Company determines the low credit risks, please refer to Note 4(6)).

2. Liquidity risks

Liquidity risks arise when the Company is unable to deliver cash or other financial assets to settle financial liabilities or fails to perform its obligations. The Company regularly monitors the current and estimated mid-to-long-term capital demand, and manages the liquidity risks by maintaining sufficient cash and ensuring compliance with the terms of the borrowing contracts.

The following table describes the maturity analysis of the remaining contracts of financial liabilities with agreed repayment periods, which was based on the earliest date that the Company may be requested for repayment and prepared based on the undiscounted cash flow.

	Contractua l cash flow	Within 6 months	6 to 12 months	1 to 2 years	Over 2 years
December 31, 2024					
Non-derivative financial liabilities:					
Accounts payable (including those to related parties)	\$ 359,472	2 359,472	-	-	-
Other payables (including those to related parties)	93,50	93,501	-	-	-

			6 to 12 months	1 to 2 years	Over 2 years
Guarantee deposits received	1,500	-	60	-	1,440
Lease liabilities	 1,073	1,073	-	-	<u>-</u>
	\$ 455,546	454,046	60	-	1,440
December 31, 2023					
Non-derivative financial liabilities:					
Accounts payable (including those to related parties)	\$ 337,424	337,424	-	-	-
Other payables (including those to related parties)	87,409	87,409	-	-	-
Guarantee deposits received	1,500	-	60	-	1,440
Lease liabilities	 3,625	1,914	1,283	428	
	\$ 429,958	426,747	1,343	428	1,440

3. Market risks

Market risks refer to risks of changes in the Company's income or the value of financial instruments held due to changes in the market price (i.e., changes in exchange rates, interest rates and equity instrument price). The objective of market risk management is to control the market risk exposure within the affordable range and to optimize return on investment.

(1) Exchange rate risks

The Company is exposed to exchange rate risks that arise from the sale and procurement transactions denominated in a non-functional currency.

A. Exposure to exchange rate risks

The carrying amount of the Company's monetary assets and liabilities not denominated in the functional currency on the reporting date is as follows:

			2024.12.31		2023.12.31			
	Fo	reign	Exchange	NTD	Foreign	Exchange	NTD	
	cui	rrency	rate		currency	rate		
Financial assets								
Monetary item								
USD	\$	11,986	32.781	392,913	13,186	30.735	405,272	
Financial								
<u>liabilities</u>								
Monetary item								
USD		11,098	32.781	363,804	11,110	30.735	341,466	

B. Sensitivity analysis

The Company's exchange rate risks arise primarily from the cash and cash equivalents and accounts receivable (including those from related parties) denominated in foreign currencies, which gives rise to currency exchange gains or losses. On December 31, 2024 and 2023, if NTD depreciates/values by 1% against the USD, and all other factors remain unchanged, the net profit (loss) before tax on December 31, 2024 and 2023 would change by NT\$291 thousand and NT\$638 thousand, respectively. The comparison of the two periods adopts the same basis.

(2) Other market price risks

The Company holds investments in equity securities of TWSE/TPEx-listed companies, which give rise to risks of change in equity price. The Company manages the investment based on fair value and actively monitors the investment performance. The equity securities held by the consolidated company that are not listed on TWSE or TPEx are strategic investments, and the Company does not actively trade such investments.

The sensitivity analysis of the price risk of equity instruments is calculated based on the changes in fair value on the reporting date. If the equity instrument price increases/decreases by 5%, other comprehensive income in 2024 and 2023 would change by NT\$11,675 thousand and NT\$14,080 thousand, respectively.

(XXII) Capital management

Based on the characteristics of the current operating industry and future development of the Company, taking into account the changes in the external environment and other factors, the Company plans for the operating funds, R&D expenses and dividend expenses required in the future period to ensure the continuous operation of the Company, give back to shareholders, take care of the benefits of other stakeholders, and maintain the optimal capital structure to long-term improve the value of shareholders.

The debt-to-equity ratio on the reporting date is as follows:

	2024.12.31		
Total liabilities	\$	589,671	503,889
Other equity	<u>\$</u>	1,242,554	1,273,596
Debt-to-equity ratio		47.46%	39.56%

(XXIII) Investing and financing activities of non-cash transactions

- 1. For the right-of-use assets acquired through leases in 2024 and 2023, please refer to Note 6(7).
- 2. The reconciliations of the liabilities from financing activities are set out in the following table:

	2()24.1.1	Cash flow	Changes in non-cash leases	2024.12.31
Guarantee deposits received	\$	1,500	-	-	1,500
Lease liabilities	•	3,592	(5,082)	2,560	1,070
Total liabilities from financing	\$	5,092	(5,082)	2,560	2,570
activities		,	. , , ,	,	,

			Changes in non-cash				
	20	23.1.1	Cash flow	leases	2023.12.31

(III) Major transactions with related parties

1. Operating income

The Company's significant sales to related parties are as follows:

Subsidiary		2024	
Acer	\$	1,056,092	970,455
Subsidiary		17,327	-
Other related parties		214,600	219,624
	<u>\$</u>	1,288,019	1,190,079

The transaction conditions of the Company's sales to related parties are not significantly different from those of general transactions. The selling price is determined based on the economic environment and market competition in each sales area or the product specifications, and there is no comparable general transaction price.

2. Purchasing and other operating costs

The purchasing and other operating costs of the Company from the related party are as follows:

		2024	2023
Acer	\$	75,857	28,511
Other related parties		2,215	3,274
	<u>\$</u>	78,072	31,785

Regarding the Company's purchasing prices from the abovementioned related parties, as partial products have different specifications, there is no comparable general transaction price. The transaction conditions with related parties are not significantly different from those of other suppliers.

3. Operating expenses

The breakdown of operating expenses generated from the provision of management consultation, system repair, technology development, and other services by related parties is as follows:

	Category of related		
Item	party	 2024	2023
Operating expenses	Acer	\$ 7,812	4,869
Operating expenses	Other related parties	 1,933	9,235
		\$ 9,745	14,104

4. Lease

The Company leases the office from Acer, and the rental was determined with reference to the rental level in the neighborhood. The total right-of-use assets and lease liabilities added in 2024 and 2023 were NT\$2,560 thousand and NT\$2,503 thousand, respectively. The interest expenses recognized in 2024 and 2023 were NT\$21 thousand and NT\$22 thousand, respectively. As of December 31, 2024 and 2023, the balance of lease liabilities was NT\$644 thousand and NT\$630 thousand, respectively.

5. Amounts receivable

The breakdown of amounts to be collected from related parties for the abovementioned sales income is as follows:

Item	Category of related party	20	24.12.31	2023.12.31
Accounts receivable -	Acer	\$	184,143	206,865
Related parties				
Accounts receivable -	Subsidiary			
Related parties			13,112	-
Accounts receivable -	Other related parties		23,699	43,011
Related parties				
		\$	220,954	249,876

6. Amounts payable

The breakdown of amounts to be paid to related parties due to the abovementioned purchases, various services expenditures, sales discounts, and payments on behalf of related parties is as follows:

Item	Category of related party	2	2024.12.31	2023.12.31
Accounts payables - Related parties	Acer	\$	47,452	18,873
Accounts payables - Related parties	Other related parties		41	1,969
Other payables - Related parties	Acer		9,132	4,059
Other payables - Related parties	Other related parties		819	1,403
Refund liabilities - Related parties	Acer		12,789	5
Refund liabilities - Related parties	Other related parties		-	5,958
		<u>\$</u>	70,233	32,267

7. Others

The Company holds the equity of Acer, which is accounted for under financial assets at fair value through other comprehensive income. Dividend income recognized in 2024 and 2023 was NT\$6,889 thousand and NT\$6,457 thousand, respectively.

(IV) Remuneration of key management personnel

		2024	2023
Short-term employee benefits	\$	20,563	22,547
Post-retirement benefits		395	394
	<u>\$</u>	20,958	22,941

VIII. Assets pledged

The carrying amount of the assets pledged by the Company as the collateral is as follows:

	Underlying subject		
Asset	pledged as collateral	2024.12.31	2023.12.31
Refundable deposits	Performance bond	\$ 1,916	1,801

IX. Major contingent liabilities and unrecognized contractual commitments

(I) Major unrecognized contractual commitments:

Letter of credit issued but unused

2024.12.31 \$ 25,639 -

X. Losses on major disasters: None.

XI. Material events after the period: None.

XII. Others

(I) The Company's employee benefits, depreciation and amortization expenses by function are summarized as follows:

Function						
Nature	Operating costs	Operating expenses	Total	Operating operating costs expenses		Total
Employee benefit expenses						
Salary expenses	-	98,485	98,485	-	88,798	88,798
Labor and health insurance expenses	-	6,386	6,386	-	5,643	5,643
Pension expenses (Note 1)	-	(762)	(762)	-	2,048	2,048
Remuneration to directors	-	3,400	3,400	-	3,395	3,395
Other employee benefit expenses	-	2,747	2,747	-	2,002	2,002
Depreciation expenses	2,948	5,505	8,453	-	5,667	5,667
Amortization expenses	-	537	537	-	665	665

(Note 1) The Company settled the balance appropriated to the labor pension fund account with the Bank of Taiwan in 2024 and recognized settlement gains in the amount of NT\$4,275 thousand (presented as a reduction item to operating expenses).

The number of employees and additional information on employee benefits expenses of the Company in 2024 and 2023 are as follows:

		2024	2023
Number of employees		69	58
Number of Directors who are not concurrently employees		7	
Average employee benefit expenses	<u>\$</u>	1,723	1,931
Average employee salary expenses	<u>\$</u>	1,588	1,741
Average employee salary expenses adjustments		(8.79)%	3.66%
Remuneration of supervisors	\$		

The Company's remuneration policy (including Directors, managers and employees) is as follows: The Remuneration Committee regularly evaluates and examines the remuneration of Directors and managers. For the salary policy of employees, it participates in the remuneration survey annually to regularly examine the salary level and provides employees with market-competitive remuneration.

XIII. Other disclosures
